## Specifications:

---

- Type: Garden Hose
- Diameter: 1/2"
- Bursting Pressure: 24 bar
- Capacity: 50m Length
- Safety / Protection: absolutely no substances that are harmful to human health
- Resistant: Three layers
- Special Features: Free from cadmium, barium and lead / Opaque middle layer prevents algae formation inside the hose / Phthalate-free (< 0.1 %) quality garden hose / Weather-resistant anti-UV outer layer
- Ideal/Suitable For: perfect for watering medium areas and gardens
- Colors: Yellow
- Dimensions: 380 x 380 x 155 mm
- Weight: 5.6Kg
- Other Information: The PrimoFlex® quality hose, which measures 1/2" in diameter and 15 m in length, is perfect for watering small to medium areas and gardens. The three-layer garden hose with pressure-resistant reinforcement mesh is free from phthalates (< 0.1%), cadmium, barium and lead – meaning it contains absolutely no substances that are harmful to human health. The weather-resistant anti-UV outer layer protects the material and the opaque middle layer prevents algae from building up inside the hose. The bursting pressure is 24 bar. The water hose also boasts an impressive temperature resistance of between -20 and 65 °C. The garden hoses in the Kärcher watering line are exceptionally flexible, robust, and resistant to kinks. The benefits are obvious: Long service life and simple handling.  
Kärcher: The wise choice for your watering needs.
